

The image is a high-angle architectural rendering of a modern building complex. The central focus is a large, multi-level outdoor staircase with wide steps, where several people are walking. To the right, a modern building with a grid-like facade and large windows stands prominently. The surrounding area includes a paved courtyard, some landscaping with small trees and shrubs, and a parking area with a few cars. In the background, there are more buildings and a hazy sky. The overall aesthetic is clean and contemporary.

| MASTER PLANNING

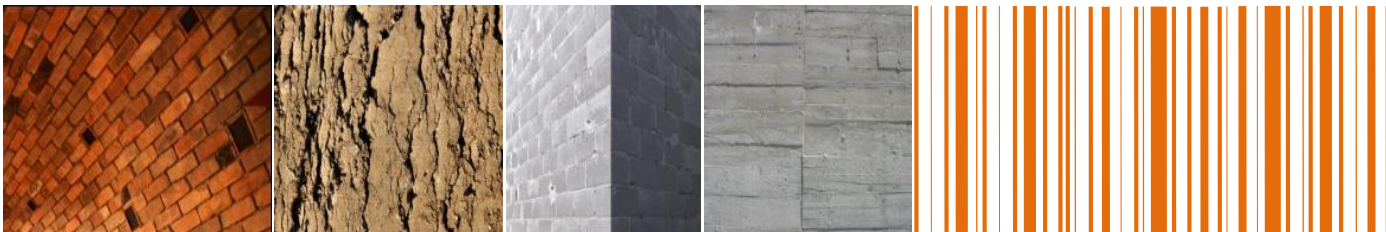

| URBAN DESIGN

**SPP Architects & Designers** established in 2007 offers design consultancy in various fields including architecture, product design, interior design and planning.

SPP is headquartered in Gurgaon but has designed numerous projects of a wide variety and size including a number of design competitions and is at present working in a number of states all over India

# HOUSING

SPP Architects and Designers has designed a number of housing projects all over India incorporating our core belief of CEEF (Cost Effective-Environment Friendly). These range from housing projects of under 10 units to township size projects.
