

CREATING ENVIRONMENTS

INTRODUCTION

“Dream Works is one of the leading luxury brand in the high quality Interior design business sector. The design stands for Functional, Timeless and Purist concepts and represents impressive technical innovations.”

Dream works is a firm, headed by Architects and Interior designers, graduated from national/international premier institutes. It has been set up to provide design and complete turnkey solutions in the field of interiors. Dream works L.L.C. provides design consultancy and project management services.

We take care of all your requirements from layout planning, design, detailing and graphics to complete execution of the works. We have a fully computerized office and our members are proficient in presentation software such as 3D-Studio Max, Photoshop and Auto CAD. We give you design presentations on the same, thus enabling you to completely visualize the project in its entirety before

implementation.

We have on our team, professionals such as architects, engineers, interior designers, graphic and multimedia experts. For execution of the projects we have a well developed network of civil, electrical and plumbing contractors, carpenters, metal fabricators and wood workshops. We also have various suppliers and vendors for your other interiors needs.

Since it's inception over nineteen years ago, the firm has worked on various consulting and turnkey projects in UAE, KSA, Oman, Qatar, Africa, Europe, UK & India. We are also tied up with '4-IV' in U.K. and have done retail store interiors in collaboration. The firm has got offices in India and UAE. The majority of our work has come to us through references of satisfied clients and some through repeat orders of existing ones. We are committed to design excellence and providing you with the best quality and service. We do this throughout all the stages starting from concept to completion. We ask you to give us a chance to serve you better.

Our reputation and client list have enabled us to attract and develop an outstanding team of highly experienced design professionals. Project teams are selected from the relevant disciplines to provide an integrated approach. Project management is efficient and effective, with emphasis placed on our clients concerns, particularly effective management of schedules and costs.

We believe in doing all our projects with greater involvement and a deeper level of commitment. Thus we give highly personalized service to all our clients and strive for their complete satisfaction. This is achieved by clear and constant one to one communication by both the partners.

RETAIL & COMMERCIAL

As a commercial general contractor, we believe in the highest quality standards. We strive to exceed customer expectations - because that's the best way to build a business that endures and succeeds. Our reputation comes from working hard on every project and never settling for less than the best.

Dream Works has finished every project on time. We work for companies both large and small, but on every project, our goal is to set new standards for responsive service and extraordinary workmanship.

From small tenant projects to corporate headquarters and major bank mergers, we treat every customer with respect and appreciate the work they entrust us with.

OFFICES

Creating an environment for your office...

At Dream works, the process of creating an Office environment starts long before the first paint chip or piece of furniture is selected. It starts when we meet and begin the process of building a relationship based on understanding and trust.

Together we explore your likes and dislikes and time restrictions. Then we begin the process of "putting the pieces together" to create an environment that will meet

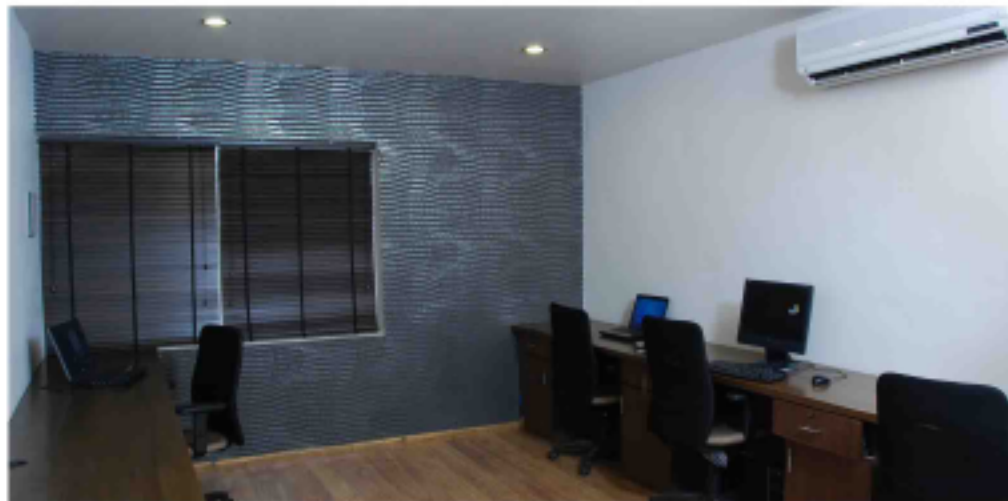

your Professional, functional needs.

We believe that work can be a place that you escape to, not from.

RESIDENTIAL

Dream works understands how important your home is to you. One of the biggest investments of your lifetime must be entrusted to someone who will approach the building of your home as if it were their own. We offer a keen eye to every detail, and working with home buyers from the first nail to the final Walk-through. We plan, consolidate, and organize each home package to maximize construction efficiency and reduce project time. No one makes a more comprehensive and easy-to-use home package than Dream Works

Each home package is built to exact standards and according to rigid detailed specifications required to meet local building regulations.. All items are finished to the highest quality standards before delivering. Whatever you need in your home package, we can source it and ship it to you. Dream works long-standing relationships with window, finish, and fixture supplies allows you to access a virtually unlimited selection of materials and hardware to satisfy your needs.

HOSPITALITY

Our effort has been to transcend the definition of hospitality design in India through an amalgamation of beauty, luxury, economic sensibility and maintenance friendliness. Dream works strongly believes that visual and thoughtful appeal play a crucial role in guest satisfaction which translates into increased business and profitability for the client.

A keen eye for detail and the ability to compile the best of creative and technological resources from around the

world is the most important part of hospitality design, which Dream works has been thriving to achieve.
